Real Chemistry Luminous 3-Minute Peel

See all:

EWG scientists reviewed Real Chemistry Luminous 3-Minute Peel for safety according to the methodology outlined in our Skin Deep Cosmetics Database. We assess the ingredients listed on the labels of personal care products based on data in toxicity and regulatory databases, government and health agency assessments and the open scientific literature. EWG's rating for Real Chemistry Luminous 3-Minute Peel is 2.

Ingredient Concerns:	low	moderate	high
Overall Hazard	<input type="text"/>		
Cancer	<input type="text"/>		
Developmental & reproductive toxicity	<input type="text"/>		
Allergies & immunotoxicity	<input type="text"/>		
Use restrictions	<input type="text"/>		

**Other HIGH concerns:** Contamination concerns; **Other MODERATE concerns:** Organ system toxicity (non-reproductive); **Other LOW concerns:** Enhanced skin absorption, Cancer, Data gaps

DISODIUM EDTA *Enhanced skin absorption*

Data: **Fair**

WATER *Innocuous*

Data: **Robust**

#### About the ratings

EWG provides information on personal care product ingredients from the published scientific literature, to supplement incomplete data available from companies and the government. The ratings below indicate the relative level of concern posed by exposure to the ingredients in this product - not the product itself - compared to other product formulations. The ratings reflect potential health hazards but do not account for the level of exposure or individual susceptibility, factors which determine actual health risks, if any.
