Ingredient Concerns: low moderate high

Overall Hazard

Cancer

Developmental & reproductive toxicity

Allergies & immunotoxicity

Use restrictions

Other HIGH concerns: Multiple, additive exposure sources, Persistence and bioaccumulation; **Other MODERATE concerns:** Contamination concerns, Organ system toxicity (non-reproductive); **Other LOW concerns:** Data gaps, Ecotoxicology, Occupational hazards

Ingredient Concerns

About the ratings

EWG provides information on personal care product ingredients from the published scientific literature, to supplement incomplete data available from companies and the government. The ratings below indicate the relative level of concern posed by exposure to the ingredients in this product - not the product itself - compared to other product formulations. The ratings reflect potential health hazards but do not account for the level of exposure or individual susceptibility, factors which determine actual health risks, if any.
